SENIOR / PRINCIPAL UX DESIGNER — AI & AGENTIC SYSTEMS

Senior and Principal UX Designer with 15+ years of experience leading end-to-end product design for enterprise SaaS, data-intensive platforms, and AI-driven systems. Deep expertise in AI-native UX, agentic workflows, human-in-the-loop systems, and LLM-integrated decision support. Proven partner to product, engineering, data science, and executive stakeholders with a track record of modernizing complex B2B platforms, improving workflow efficiency, and scaling design systems while maintaining trust, transparency, and usability.

CORE COMPETENCIES

AI-Native UX & Agentic Systems • Human-in-the-Loop Design • LLM Oversight & Trust Models • Decision-Support Interfaces • UX Strategy & User-Centered Design • Enterprise SaaS UX • End-to-End Product Design (Discovery–Delivery) • Information Architecture • Interaction Design • Analytics & Data Visualization UX • Design Systems & Pattern Libraries • Accessibility & Inclusive Design • Stakeholder Alignment • Cross-Functional Collaboration • Design Leadership & Mentorship

TOOLS & TECHNOLOGIES

Figma, Sketch, Adobe Creative Suite • Jira, Confluence, Miro, Slack • OpenAI APIs, Claude, Gemini, Cursor, GitHub Copilot • Bolt.new, Replit, Lovable.dev, Figma Make

PROFESSIONAL EXPERIENCE

Agate Software

Principal UX/UI Designer & Manager | Jun 2023 – Jun 2025 | Remote

Atom Software SaaS Product Redesign, IGX SaaS Product Redesign

- Led end-to-end redesign of enterprise SaaS platforms supporting complex, multi-tenant B2B workflows, aligning design principles with product vision and strategy to improve task efficiency and user satisfaction.
- Conducted comprehensive user and product research using quantitative data analysis and competitive analysis to identify key pain points and inform design decisions.
- Drove the UX process from low-fidelity wireframes through high-fidelity visual design prototypes, iterating with user feedback and usability best practices at each stage.
- Created a comprehensive component design system and accessibility guidelines, ensuring visual consistency across all interface elements and WCAG compliance.
- Partnered with product, engineering, and leadership to align UX strategy with AI-adjacent roadmap initiatives.

Bank of America

Senior UX/UI Designer | Jan 2023 – Jun 2023 | Remote

Auto Loans Mobile Responsive Web Integration

- Integrated Auto Loans mobile-responsive web pages into the existing platform, reviewing business requirements and incorporating stakeholder feedback at each stage to refine the design.
- Conducted quantitative data analysis and competitive analysis to identify user pain points and inform design decisions for data-heavy financial interfaces.
- Created wireframe solutions from low-fidelity to high-fidelity visual prototypes, enabling rapid validation of design concepts while ensuring alignment with regulatory and business goals.
- Established design systems and guidelines ensuring coherence across all interface elements and adherence to accessibility standards.

Millonex

Lead UX/UI Designer & Manager | Nov 2021 – Dec 2022 | Remote

Simplicity SaaS Product, Marketing Responsive Website, Branding

- Redesigned the marketing website and SaaS product end-to-end, defining design principles aligned to product vision and improving overall task efficiency and user satisfaction.
- Conducted comprehensive user research using quantitative data analysis and competitive analysis to identify key pain points and inform design decisions.
- Drove wireframe design solutions from low-fidelity explorations through high-fidelity visual prototypes, incorporating user feedback at each iteration.
- Created a comprehensive component design system and guidelines for visual consistency and accessibility compliance across desktop and responsive use cases.
- Led stakeholder reviews and iterative refinement cycles throughout the engagement.

Gray Matter Analytics

Principal UX Designer | Sep 2015 – Sep 2022 | Remote

CoreTechs SaaS Product Redesign

- Led redesign of the CoreTechs SaaS platform for enterprise and analytics-driven users, aligning design principles with product vision to improve usability and user satisfaction.
- Conducted comprehensive research using quantitative data analysis and competitive analysis to identify user pain points and inform design decisions.
- Drove the UX process from low-fidelity wireframes through high-fidelity prototypes, iterating with user feedback to develop a robust, user-friendly solution.
- Created a comprehensive component design system ensuring visual consistency, brand integrity, and accessibility compliance across the platform.
- Partnered long-term with product and engineering to continuously evolve platform UX and decision-support workflows.

Accenture

Senior UX/UI Designer | Oct 2016 – Oct 2018 | Remote

Accenture Internal Product Suite Consolidation

- Redesigned and consolidated enterprise websites and internal product suites, meeting with key stakeholders and incorporating feedback at each stage.
- Conducted quantitative data analysis and competitive research to identify pain points and inform design decisions.
- Created wireframe solutions from low-fidelity through high-fidelity visual prototypes, ensuring alignment with user needs and business goals.
- Established design systems and guidelines for visual consistency and accessibility compliance across the consolidated product suite.

UX Factory

Lead UX Designer | May 2016 – Aug 2016 | Remote

State Farm Mobile Application

- Designed from scratch an MVP mobile app, defining design principles aligned to the product vision and strategy.
- Conducted user and product research using quantitative data analysis and competitive analysis to identify key user needs.
- Drove the UX design process from low-fidelity wireframes through high-fidelity visual prototypes, incorporating feedback at each iteration.
- Established design system guidelines ensuring visual consistency and accessibility compliance.

Frequency 540

Lead UX Designer | Jan 2016 – Jun 2016 | Remote

Marketing Website Redesign

- Redesigned the marketing website by reviewing business requirements and incorporating stakeholder feedback to align design solutions with engagement goals.
- Conducted user research and competitive analysis to inform design decisions and identify key opportunities.
- Created wireframe solutions from low-fidelity through high-fidelity visual prototypes for rapid concept validation.

iCrossing

Lead UX Designer | Dec 2014 – Jan 2016 | Remote

Jim Beam Product Site, Dremel.com Redesign, Blue Cross Blue Shield Mobile App

- Led redesign of mobile-responsive websites for major consumer brands, aligning design principles with each brand's vision and strategy.
- Conducted quantitative data analysis and competitive research to identify pain points and user needs across diverse audiences.
- Drove wireframe design from low-fidelity explorations through high-fidelity visual prototypes, incorporating user feedback and usability best practices.
- Established design systems and guidelines ensuring visual consistency and accessibility compliance across all projects.

FCB Chicago

Associate Creative Director / Principal UX Designer | Mar 2014 – Dec 2014

Aramark Marketing Site Responsive Redesign

- Executed responsive redesign of the Aramark marketing website, meeting with stakeholders and incorporating feedback to align with business objectives.
- Conducted user research and competitive analysis to identify opportunities and inform design decisions.
- Created wireframe solutions from low-fidelity through high-fidelity visual prototypes, ensuring alignment with user needs.
- Established design guidelines for visual consistency and accessibility compliance.

TransUnion

Principal UX/UI Designer | Nov 2011 – Dec 2014

Marketing Site Redesign, Authenticated Credit Report Product

- Redesigned the marketing website and SaaS product, aligning design solutions with product strategy to improve task efficiency and user satisfaction.
- Conducted comprehensive user research using quantitative data analysis and competitive analysis to inform design decisions.
- Drove the UX process from low-fidelity wireframes through high-fidelity visual prototypes for both marketing and authenticated product experiences.
- Established design systems and guidelines ensuring visual consistency and accessibility compliance across all platforms.

Sapient Nitro

Lead UX/UI Designer | May 2012 – Mar 2014

Mopar.com, Chrysler.com, UConnect.com, Chicago Public Schools, National Heritage Academy

- Delivered responsive web solutions for enterprise and public-sector clients, aligning design principles with each client's vision and strategy.
- Conducted quantitative data analysis and competitive research to identify user needs and inform design decisions across diverse projects.
- Created wireframe solutions from low-fidelity through high-fidelity visual prototypes, iterating with user feedback and usability best practices.
- Established design systems and guidelines for visual consistency and accessibility compliance across all client projects.

EDUCATION

University of Wisconsin–Madison — Bachelor of Science, Graphic Design & Fine Art
